Subject: T-Peg v. VTW

Dan,

PS I forgot to address the "additional exhibits" issue which you did raise. I will not object to your late addition of the additional exhibits which are the *intra-company* agreements from the pleadings (but I'm not agreeing at this time that they come into evidence). Also, on those, unlike all others, I do not waive authentication, because I think there are some genuine authentication issues.

Regards,
Ned
